UNITED COMMUNITY FINANCIAL CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. STOCK COMPENSATION

Employee compensation expense under stock option plans is reported if options are granted below market price at grant date. Pro forma disclosures of net income and earnings per share are shown using the fair value method of FASB Statement No. 123 to measure expense for options granted after 1994, using an option pricing model to estimate fair value.

Employee compensation expense under stock options is reported using the intrinsic value method. No stock-based compensation cost is reflected in net income, as all options granted had an exercise price equal to or greater than the market price of the underlying common stock at date of grant. The following table illustrates the effect on net income and earnings per share if expense was measured using the fair value recognition provisions of FASB Statement No. 123, Accounting for Stock-Based Compensation.

	For the Six Months Ended June 30,	
	2003	2002
	(In thousands)	
Net income as reported	\$12,007	\$10,252
Deduct: Stock-based compensation expense determined under fair value method	2,201	1,329
Pro Forma net income	\$ 9,808	\$ 8,923
Basic earnings per share as reported	\$ 0.38	\$ 0.32
Pro Forma basic earnings per share	\$ 0.31	\$ 0.28
Diluted earnings per share as reported	\$ 0.38	\$ 0.32
Pro forma diluted earnings per share	\$ 0.31	\$ 0.28

The pro forma effects are computed using option pricing models, using the following weighted-average assumptions as of grant date.

	2003	2002
Dividend yield	3.34%	4.00%
Expected stock price volatility	48.31%	38.31%
Risk-free interest rate	3.98%	5.01%
Expected option life (In years)	10	10

2. BASIS OF PRESENTATION

United Community Financial Corp. (United Community) was incorporated under Ohio law in February 1998 by The Home Savings & Loan Company of Youngstown, Ohio (Home Savings) in connection with the conversion of Home Savings from an Ohio mutual savings and loan association to an Ohio capital stock savings and loan association (Conversion). Upon consummation of the Conversion on July 8, 1998, United Community became the unitary savings and loan holding company for Home Savings. Home Savings has 34 full service offices and five loan production offices throughout northern Ohio and western Pennsylvania. Butler Wick Corp. (Butler Wick) became a wholly owned subsidiary of United Community on August 12, 1999. Butler Wick is the parent company for three wholly owned subsidiaries: Butler Wick & Co., Inc., Butler Wick Asset Management Company and Butler Wick Trust Company. Through these subsidiaries, Butler Wick’s business includes investment brokerage services, which it has conducted for over 70 years, and a network of integrated financial services, including asset management, trust and estate services, public finance and insurance. Butler Wick and its subsidiaries have eleven full service offices and two trust offices throughout northern Ohio and western Pennsylvania.

The accompanying consolidated financial statements of United Community have been prepared in accordance with instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. However, such information reflects all adjustments (consisting solely of normal recurring adjustments) which are, in the opinion of management, necessary for fair statement of results for the interim periods.

The results of operations for the six months ended June 30, 2003 are not necessarily indicative of the results to be expected for the year ending December 31, 2003. The consolidated financial statements and notes thereto should be read in conjunction with the audited financial statements and notes thereto for the year ended December 31, 2002, contained in United Community’s Form 10-K for the year ended December 31, 2002.

3. MORTGAGE BANKING ACTIVITIES

Mortgage loans serviced for others, which are not reported as assets, totaled \$577.8 million at June 30, 2003.

Activity for capitalized mortgage servicing rights, included in other assets, was as follows in 2003:

	(In thousands)
Balance, beginning of year	\$ 3,603
Additions	2,745
Amortized to expense	(1,108)
	<hr/>
Balance, end of period	\$ 5,240
	<hr/>

Activity in the valuation allowance for mortgage servicing rights was as follows in 2003:

	(In thousands)
Balance, beginning of year	\$ —
Additions	(415)
Recoveries	—
	<hr/>
Balance, end of period	\$(415)
	<hr/>

4. SECURITIZATIONS

During the six months ended June 30, 2003, \$90.4 million in residential mortgage loans were sold in securitization transactions. The securities received in these transactions were then immediately sold. A gain of \$4.2 million was recorded on the sale. Home Savings retained servicing responsibilities for the loans, for which it receives annual servicing fees approximating 0.25% of the outstanding balance of the loans.

Approximately \$30.5 million of the loans sold had loan to value ratios greater than 80% and did not have mortgage insurance coverage on the delivery date. These loans were sold with recourse to Home Savings. The recourse obligation will terminate for each loan on June 30, 2005, provided that on that date, the loan is not 30 days or more delinquent. If this criteria is not met, the recourse obligation on that loan will continue until such time as the loan becomes and remains current for a period of 12 consecutive scheduled monthly payments from the date of the last delinquency. Home Savings reduced the recorded gain from the securitization by the fair value of the recourse obligation.

An analysis of the activity in securitizations serviced by Home Savings during this period follows:

	(In thousands)
Balance at December 31, 2002	
Principal balance of loans	\$156,995
Amortized cost of servicing rights	1,350
Servicing rights as a % of principal	0.86%
 New securitizations during 2003	
Principal balance of loans	\$ 90,413
Fair value of servicing rights	741
Servicing rights as a % of principal	0.82%
 Principal payments received on loans securitized	56,795

Balance at June 30, 2003	(In thousands)
Principal balance of loans	\$190,613
Amortized cost of servicing rights	1,559
Servicing rights as a % of principal	0.82%
Other information at end of period	
Weighted average rate	6.76%
Weighted average maturity in months	295
Fair value assumptions	
Discount rate	8%
Weighted average prepayment assumptions	411PSA

Cash flows from all securitizations of mortgage loans were as follows in 2003:

	(In thousands)
Securitization proceeds	\$93,983
Servicing fees received	171

In the securitization transactions, Home Savings retained residual interests in the form of servicing assets. The servicing assets represent the allocated value of retained servicing rights on the loans securitized. The following table indicates how fair value might decline if the assumptions changed unfavorably in two different magnitudes:

Fair value at June 30, 2003	\$1,922
Weighted average life (in months)	75
Projected fair value based on:	
Increase in PSA of 50	\$1,759
Increase in PSA of 100	\$1,625

The effect of adverse changes is hypothetical and should not be extrapolated to other changes as the effects are not linear.

5. SEGMENT INFORMATION

United Community has two principal segments, retail banking and investment advisory services. Retail banking provides consumer and corporate banking services. Investment advisory services provides investment brokerage and a network of integrated financial services. Condensed statements of income by operating segment for the three and six months ended June 30, 2003 and 2002 are as follows:

	Three Months Ended June 30, 2003

Income tax expense	5,664	111	—	5,775
Net income	\$10,052	\$ 200	\$ —	\$10,252

6. LONG-TERM INCENTIVE

On July 12, 1999, shareholders approved the United Community Financial Corp. Long-Term Incentive Plan (Incentive Plan). The purpose of the Incentive Plan is to promote and advance the interests of United Community and its shareholders by enabling United Community to attract, retain and reward directors, directors emeritus, managerial and other key employees of United Community, including Home Savings and Butler Wick, by facilitating their purchase of an ownership interest in United Community.

The Incentive Plan provides for the grant of options, which may qualify as either incentive or nonqualified stock options. The Incentive Plan provides that option prices will not be less than the fair market value of the stock at the grant date. The maximum number of common shares that may be issued under the Incentive Plan is 3,471,562. All of the options awarded become exercisable on the date of grant. The option period expires 10 years from the date of grant. A summary of activity in the Incentive Plan is as follows:

	For the six months ended June 30,			
	2003		2002	
	Shares	Weighted average exercise price	Shares	Weighted average exercise price
Outstanding at beginning of year	1,909,615	\$7.01	1,307,496	\$6.79
Granted	742,654	8.97	715,710	7.40
Exercised	89,734	6.90	23,814	6.84
Forfeited	—	—	20,595	6.83

Options exercisable at end of period	2,562,535	\$7.59	1,978,797	\$7.01
Weighted-average fair value of options granted during year		\$3.65		\$2.44

7. EARNINGS PER SHARE

Earnings per share are computed by dividing net income by the weighted average number of shares outstanding during the period. Diluted earnings per share is computed using the weighted average number of shares determined for the basic computation plus the dilutive effect of potential common shares that could be issued under outstanding stock options and restricted stock awards. There were no anti-dilutive shares for the periods ended June 30, 2003 or 2002.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2003	2002	2002	2002

-
- (1)

Ratios for the three and six month periods are annualized where appropriate.
- (2)

Net income divided by average total assets.
- (3)

Net income divided by average total equity.
- (4)

Difference between weighted average yield on interest-earning assets and weighted average cost of interest-bearing liabilities.
- (5)

Net interest income as a percentage of average interest-earning assets.
- (6)

Noninterest expense, excluding the amortization of core deposit intangible, divided by the sum of net interest income and noninterest income, excluding gains and losses on securities and other.
- (7)

Nonperforming loans consist of nonaccrual loans and restructured loans.
- (8)

Nonperforming assets consist of nonperforming loans and real estate acquired in settlement of loans.
- (9)

Net income divided by average number of shares outstanding (no dilutive effect).
- (10)

Equity divided by number of shares outstanding.
- (11)

Equity minus goodwill and core deposit intangible divided by number of shares outstanding.
- (12)

Market value divided by book value.

Forward Looking Statements

Certain statements contained in this report that are not historical facts are forward looking statements that are subject to certain risks and uncertainties. When used herein, the terms “anticipates,” “plans,” “expects,” “believes,” and similar expressions as they relate to United Community or its management are intended to identify such forward looking statements. United Community’s actual results, performance or achievements may materially differ from those expressed or implied in the forward-looking statements. Risks and uncertainties that could cause or contribute to such material differences include, but are not limited to, general economic conditions, interest rate environment, competitive conditions in the financial services industry, changes in law, governmental policies and regulations, and rapidly changing technology affecting financial services.

Comparison of Financial Condition at June 30, 2003 and December 31, 2002

Total assets decreased \$10.6 million, or 0.5%, to \$2.0 billion at June 30, 2003, compared to December 31, 2002. United Community had decreases of \$48.3 million in cash and cash equivalents, \$17.3 million in net loans, \$11.2 million in loans held for sale and \$1.0 million in margin accounts and an increase of \$35.2 million in other borrowed funds. These changes were used to fund increases of \$45.6 million in securities, \$20.0 million in bank owned life insurance and \$3.1 million in other assets and a decrease of \$55.2 million in deposits.

Funds that are available for general corporate purposes, such as loan originations, enhanced customer services and possible acquisitions, are invested in overnight funds and marketable and mortgage-related securities available for sale. Cash and deposits with banks increased \$2.0 million, or 6.0%, to \$35.2 million at June 30, 2003, compared to \$33.2 million at December 31, 2002. Federal funds sold and other overnight funds decreased \$50.2 million, or 64.6%, to \$27.5 million at June 30, 2003, from \$77.8 million at December 31, 2002. Securities available for sale, which includes both marketable and mortgage-related securities, increased \$37.4 million, or 15.8%, since December 31, 2002. Trading securities, which consist of marketable securities, increased \$8.1 million to \$13.2 million at June 30, 2003. The net decrease in cash and deposits and overnight funds, along with decreases in loans and loans held for sale and an increase in other borrowed funds, was primarily used to fund increases in securities and bank owned life insurance and the decrease in deposits.

Net loans decreased \$17.3 million, or 1.17%, to \$1.5 billion at June 30, 2003, compared to December 31, 2002. Home Savings had a \$236.3 million decline in one- to four-family and land loans, which was partially offset by a \$76.2 million increase in multifamily and nonresidential loans, resulting in a net decrease of \$160.1 million in real estate loans, mainly as a result of the securitization of approximately \$90.4 million of fixed rate loans from the portfolio to help manage interest rate risk and continued refinancing activity in the portfolio as a result of the current interest rate environment. This decrease was partially offset by increases of \$78.1 million in construction loans, \$20.8 million in consumer loans and \$2.4 million in commercial loans. Loans held for sale decreased \$11.2 million, or 24.4%, to \$34.6 million at June 30, 2003 compared to \$45.8 million at December 31, 2002. During the first half of 2003, Home Savings sold approximately \$238.3 million in newly originated fixed-rate loans to help manage interest rate risk, and anticipates continued sales as a part of its strategic plan to manage interest rate risk.

The allowance for loan losses increased to \$16.3 million at June 30, 2003, from \$15.1 million at December 31, 2002. Due to the refinancing and sales of loans mentioned above, Home Savings has been experiencing a shift in the loan portfolio from one- to four-family residential loans to other portfolios, such as nonresidential real estate lending and commercial lending, which are generally considered to involve a higher degree of risk than residential real estate lending due to the relatively larger loan amounts and the effects of general economic conditions on the successful operation of businesses and income-producing properties. This shift, along with a \$2.1 million increase in nonperforming loans and current economic conditions, are all factors that affected management’s decision to increase the allowance. This allowance is monitored by management on a regular basis and may be increased or decreased at any time as dictated by the underlying data. The allowance for loan losses as a percentage of total loans increased to 1.10% at June 30, 2003 compared to 1.01% at December 31, 2002. The allowance for loan losses as a percent of non-performing loans increased to 1.10% at June 30, 2003 compared to 0.95% at June 30, 2002.

Nonperforming assets, which include nonaccrual and restructured loans and real estate owned, increased approximately \$1.6 million, or 9.9%, to \$18.1 million at June 30, 2003, from \$16.5 million at December 31, 2002, primarily due to an increase in nonperforming commercial loans. Total nonaccrual and restructured loans accounted for 1.18% of net loans receivable at June 30, 2003 and 1.01% of net loans receivable at December 31, 2002. Total nonperforming assets were 0.91% of total assets as of June 30, 2003 and 0.83% as of December 31, 2002.

During the second quarter of 2003, Home Savings invested \$20.0 million in bank owned life insurance, which represents insurance on the lives of certain employees where Home Savings is the beneficiary. The purpose of this investment is to partially cover the cost of Home Savings’ existing benefit plans. Bank owned life insurance provides a long-term asset to offset long-term benefit liabilities,

while generating competitive investment yields. Increases in the Home Savings’ policy cash surrender value are tax-deferred and death benefit proceeds received by Home Savings are tax-free.

Total deposits decreased \$55.2 million from \$1.5 billion at December 31, 2002, to \$1.4 billion at June 30, 2003. This decrease is mainly due to a \$78.3 million decrease in certificates of deposit, which was partially offset by a \$16.0 million increase in savings accounts and \$7.1 million increase in checking accounts. Assuming the interest rate environment remains the same, United Community anticipates the deposit runoff to begin stabilizing as pricing reaches its low.

Other borrowed funds increased \$35.2 million to \$245.2 million at June 30, 2003 compared to \$210.0 million at December 31, 2002. The increase consisted of an increase in long term advances from the Federal Home Loan Bank (FHLB) of \$22.4 million, short term FHLB advances of \$9.4 million and other short term borrowing as a result of bond positions entered into by Butler Wick

Shareholders’ equity increased \$1.5 million, or 0.5%, to \$276.1 million at June 30, 2003 from \$274.6 million at December 31, 2002. The increase was primarily due to income for the first half of the year, which was partially offset by treasury stock purchases and quarterly dividends of \$0.075 per share. During the first half of 2003, United Community repurchased 882,585 shares of its stock. As United Community completes its first buy back program, it anticipates continued share repurchases through the new buy back program approved in April 2003. Tangible book value and book value per share were \$6.92 and \$8.02 as of June 30, 2003.

**Comparison of Operating Results for the Three Months Ended
June 30, 2003 and June 30, 2002**

Net Income. Net income for the three months ended June 30, 2003 was \$7.0 million, or \$0.22 per diluted share, compared to net income of \$6.0 million, or \$0.19 per diluted share, for the three months ended June 30, 2002. Net interest income decreased by \$605,000, while the provision for loan losses increased by \$1.2 million. Noninterest income increased \$4.7 million, which can mainly be attributed to an increase of \$3.8 million in gains recognized from the sale of loans. The increase in noninterest income was partially offset by increased noninterest expense. United Community’s annualized return on average assets and return on average equity were 1.41% and 10.23%, respectively, for the three months ended June 30, 2003. The annualized return on average assets and return on average equity for the comparable period in 2002 were 1.19% and 9.00%, respectively.

Net Interest Income. Net interest income decreased \$605,000, or 3.2%, for the three months ended June 30, 2003, compared to the second quarter of 2002. The decline is primarily due to decreases in interest earned on loans of \$3.9 million and net securities of \$262,000, realized as a result of decreases in interest rates. The level of refinancing activity during the second quarter of 2003, which caused an \$88.7 million decline in the average loan balance, also contributed to the lower interest income levels on loans. These decreases were partially offset by a \$3.8 million decline in interest expense on deposits, which was a result of declining interest rates and a \$124.0 million decrease in the average balance of certificates of deposit. The interest rate spread for the three months ended June 30, 2003 was 3.54% compared to 3.51% for the quarter ended June 30, 2002. Net interest margin declined 8 basis points to 3.84% for the three months ended June 30, 2003 compared to 3.92% for the same quarter in 2002. Assuming the interest rate environment remains steady, United Community anticipates some compression of the interest rate margin as deposit pricing reaches its low and loans continue to prepay.

Provision for Loan Losses. A provision for loan losses is charged to operations to bring the total allowance for loan losses to a level considered by management to be adequate to provide for probable losses based on management’s evaluation of such factors as the delinquency status of loans, current economic conditions, the fair value of the underlying collateral, changes in the composition of the loan portfolio and prior loan loss experience. Due to the shift in the loan portfolio from one- to four-family residential loans to other portfolios, a \$968,000 increase in nonperforming loans and current economic conditions, a \$1.7 million provision for loan losses was recorded for the second quarter of 2003. Home Savings’ allowance for loan losses totaled \$16.3 million at June 30, 2003, which was 1.10% of total loans, compared to 0.95% at June 30, 2002. The allowance for loan losses as a percent of non-performing loans increased to 1.10% at June 30, 2003 compared to 0.95% at June 30, 2002.

Noninterest Income. Noninterest income increased \$4.7 million, or 54.7%, from \$8.5 million for the three months ended June 30, 2002, to \$13.2 million for the three months ended June 30, 2003, primarily due to the increase of \$3.8 million in gains recognized on the sale of loans. During the second quarter of 2003, United Community sold newly originated loans and securitized fixed rate loans from the portfolio to help manage interest rate risk. These sales resulted in gains of approximately \$2.2 million and \$4.2 million, respectively. In comparison, during the three months ended June 30, 2002, United Community sold newly originated loans that resulted in \$673,000 in gains and securitized loans out of the portfolio that resulted in \$2.2 million in gains. A change in future interest rates could cause the gains on the sale of loans to be effected. Increases in gains on trading securities of \$817,000, which are largely related to the market valuation of the trading securities portfolio, and \$237,000 in commission income also contributed to the increase

in noninterest income. These increases were partially offset by a \$379,000 decline in service fees and other charges, which are principally a result of an impairment charge on mortgage servicing rights.

Noninterest Expense. Total noninterest expense increased \$1.4 million, or 7.9%, to \$18.7 million for the three months ended June 30, 2003, from \$17.4 million for the three months ended June 30 2002. The increase is primarily due to a \$2.0 million increase in salaries and employee benefits and a \$309,000 increase in equipment and data processing. The increase in salaries and employee benefits is primarily due to a \$977,000 charge for post retirement benefits as a result of increased health care costs and an \$806,000 increase in the market valuation of the Butler Wick retention plan. These increases were partially offset by decreases of \$325,000 in other noninterest expense, \$274,000 in advertising expense, \$261,000 in the amortization of the core deposit intangible related to the acquisitions of Potters Financial Corporation (Potters) and Industrial Bancorp (Industrial) and \$113,000 in franchise tax expense. The decline in other expense is primarily due to decreases in telephone expense, supervisory fees, professional fees and sales tax.

Federal Income Taxes. The provision for federal income taxes increased \$487,000 for the three months ended June 30, 2003, compared to the three months ended June 30, 2002 due to higher pre-tax income in 2003. The effective tax rates were 35.3% and 35.8% for the three months ended June 30, 2003 and 2002, respectively.

**Comparison of Operating Results for the Six Months Ended
June 30, 2003 and June 30, 2002**

Net Income. Net income for the six months ended June 30, 2003 was \$12.0 million, or \$0.38 per diluted share, compared to net income of \$10.3 million, or \$0.32 per diluted share, for the six months ended June 30, 2002. Net interest income increased \$1.7 million and noninterest income increased \$4.7 million, and were offset by a \$2.8 million increase in noninterest expense and a \$1.2 million increase in the provision for loan losses. United Community acquired Potters in the second quarter of 2002, which partially accounts for the increases in 2003. United Community’s annualized return on average assets and return on average equity were 1.20% and 8.74%, respectively, for the six months ended June 30, 2003. The annualized return on average assets and return on average equity for the comparable period in 2002 were 1.00% and 7.71%, respectively.

Net Interest Income. Net interest income increased \$1.7 million, or 4.8%, for the six months ended June 30, 2003, compared to the first six months of 2002, primarily due to a decrease of \$6.9 million in interest expense on deposits, which is mostly related to a decrease in interest rates and a \$103.6 million decline in the average balance of certificates of deposit. A decline in interest expense on other borrowed funds of \$310,000 as a result of a decline in interest rates also contributed to the higher net interest income. These decreases were partially offset by a decrease of \$4.7 million in interest earned on loans as a result of an \$81.2 million decline in the average loan balance and falling interest rates. During the fourth quarter of 2002, United Community transferred securities from the held to maturity category to the available for sale category to provide more flexibility for managing interest rate risk. This transfer, along with a decrease in rates caused held to maturity income to decrease \$2.4 million for the six months ended June 30, 2003 compared to the same period in 2002. A decrease in income on other interest-earning assets of \$639,000 as a result of a decrease of \$70.9 million in the average balance of other interest earning assets also contributed to the decrease in interest income. These decreases were partially offset by a \$1.6 million increase in interest earned on available for sale securities as a result of a \$135.2 million increase in the average balance of available for sale securities which is related to the transfer from the held to maturity category as well as additional securities that have been purchased in the past year. Interest rate spread and net interest margin for the six months ended June 30, 2003 were 3.56% and 3.88%, respectively. Interest rate spread and net interest margin were 3.18% and 3.60%, respectively, for the same period in 2002.

Provision for Loan Losses. Due to the shift in the loan portfolio, an increase in nonperforming loans of \$4.1 million and current economic conditions, the provision for loan loss allowances was \$2.4 million for the first six months of 2003 compared to \$1.2 million for the first six months of 2002.

Noninterest Income. Noninterest income increased \$4.7 million, or 28.9%, from \$16.4 million for the six months ended June 30, 2002, to \$21.1 million for the six months ended June 30, 2003, primarily due to an increase of \$5.0 million in gains on loans sold. During 2003, United Community sold newly originated loans and securitized fixed rate loans from the portfolio to help manage interest rate risk, resulting in gains of approximately \$4.2 million for both newly originated and portfolio loans. In comparison, during the six months ended June 30, 2002, United Community sold newly originated loans that resulted in \$1.2 million in gains and securitized loans out of the portfolio that resulted in \$2.2 million in gains. Gains recognized on trading securities increased \$646,000 as a result of market valuation changes, underwriting and investment banking income increased \$134,000 and other recognized losses decreased \$121,000 mainly as a result of fixed asset disposals in 2002. These changes were partially offset by decreases of \$552,000 in other income and \$153,000 in gains on securities. Since Anthem is Home Savings’ health care provider, Home Savings received shares of Anthem stock through the demutualization of Anthem, Inc. and subsequently sold the stock in March 2002. To recognize the receipt, other income was increased by \$847,000 in the first quarter of 2002. To recognize the subsequent sale of the stock, a gain of \$476,000

was recognized on the sale of marketable securities in the first quarter of 2002. A decrease of \$481,000 in service fees and other charges, primarily as a result of an impairment charge on mortgage servicing rights, contributed to offsetting the increases in noninterest income.

Noninterest Expense. Total noninterest expense increased \$2.8 million, or 8.1%, to \$36.9 million for the six months ended June 30, 2003, from \$34.1 million for the six months ended June 30, 2002, primarily as a result of a \$3.2 million increase in salaries and employee benefits and \$834,000 in equipment and data processing. The increase in salaries and employee benefits is mainly related to a \$1.8 million charge for post retirement benefits as a result of increased health care costs, increased salaries from the acquisition of Potters that occurred in the second quarter of 2002 and an increase in the valuation of the Butler Wick retention plan. The increase in equipment and data processing is a result of having six months of depreciation recorded from the Potters acquisition as opposed to three months in the same period last year. In addition, depreciation has increased for software upgrades to the teller platform system, computer equipment to run the updated software and a new telephone system. These increases were offset by decreases of \$510,000 in the amortization of core deposit intangibles related to the acquisitions of Industrial and Potters, \$132,000 in franchise tax and \$707,000 in other expense. The decline in other expense is predominately due to charges recognized in the first quarter of 2002 as a result of the early extinguishments of debt that did not reoccur in 2003. During 2002, United Community determined that it was advantageous to extinguish debt early and incur associated fees due to economic conditions and cash inflows from sales of loans.

Federal Income Taxes. The provision for federal income taxes increased \$715,000 for the six months ended June 30, 2003, compared to the six months ended June 30, 2002 due to higher pre-tax income in 2003. The effective tax rates were 35.1% and 36.0% for the six months ended June 30, 2003 and 2002, respectively.

UNITED COMMUNITY FINANCIAL CORP.
AVERAGE BALANCE SHEETS

The following table presents the total dollar amounts of interest income and interest expense on the indicated amounts of average interest-earning assets or interest-bearing liabilities together with the weighted average interest rates for the three months ended June 30, 2003 and June 30, 2002. Average balance calculations were based on daily balances.

(1) Nonaccrual loans are included in the average balance.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

United Community sold fixed rate mortgages during the last six months to help mitigate interest rate risk. This was the only material change in information about market risk from that provided in the 2002 Annual Report to Shareholders’, which was incorporated by reference into United Community’s 2002 Annual Report on Form 10-K.

ITEM 4. Controls and Procedures

An evaluation was carried out by United Community’s management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-14(c)/15d-14(c) of the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on their evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that United Community’s disclosure controls and procedures are effective. During the period covered by this report, there were no changes in United Community’s internal controls or in other factors that materially affected, or are reasonably likely to materially affect, these controls.

PART II. OTHER INFORMATION

UNITED COMMUNITY FINANCIAL CORP.

Items 1, 2, 3 and 5 — Not applicable

Item 4 — Submission of Matters to a Vote of Security Holders

On April 24, 2003, United Community held its Annual Meeting of Shareholders. In connection therewith, two matters were submitted to shareholders for a vote. First, shareholders elected three directors to terms expiring in 2005 by the following votes:

Director	For	Withheld
Richard J. Schiraldi	27,112,932	401,143
Herbert F. Schuler, Sr.	27,107,625	406,450
Donald J. Varner	27,032,587	481,488

The shareholders also ratified the selection of Crowe Chizek and Company LLC as auditors for the 2003 fiscal year by the following vote:

For	Against	Abstain
27,082,450	254,488	177,136

Item 6 - Exhibits and Reports on Form 8-K

a. Exhibits

Exhibit Number	Description
3.1	Articles of Incorporation
3.2	Amended Code of Regulations
31.1	Section 302 Certification by Chief Executive Officer
31.2	Section 302 Certification by Chief Financial Officer
32	Certification of Financial Statements by Chief Executive Officer and Chief Financial Officer

b. Reports on Form 8-K

On April 17, 2003, United Community filed an 8-K under Items 9 and 12, disclosing operating results for the quarter ended March 31, 2003.

On April 21, 2003, United Community filed an 8-K under Item 5, Other Events, announcing Board approval to repurchase United Community stock.

On June 3, 2003, United Community filed and 8-K under Item 11, Temporary Suspension of Trading Under Registrant’s Employee Benefit Plans.

UNITED COMMUNITY FINANCIAL CORP.
